

CENTER- Giridharaprasad AWC 1

AWW Name-Supakanti Rout

AWH Name- Sabita Rout

Total Population:-237+224=461

0-3 year child -14+12=26

3-6 year child -12+8=20

Working year of AWW:-25 year

Qualification of AWW:-Graduation

Before Intervention:-

Giridharaprasad Village is located nearer to the forest. It is a very big village and total population is 446, villagers are involving in different kinds of occupation. There are four Anganawadi centers in Giridharaprasad, which are Giridharaprasad-1, 2, 3 & 4.

Out of these four Anganwadi centers we had chosen two anganwadi centers (Giridharaprasad-2&3), but Giridharaprasad AWC-1 is different, its anganwadi worker's name is Supakanti Rout and Anganwadi helper's name is Sabita Rout, total preschool children strength of AWC-1 is 12+6=18. Long ago when the regional coordinator of Odisha from ILP was **Mr. Rabi Mani**, we started were looking for anganwadi centers for PSE activities at that time the health conditions of AWW was very bad; So we didn't select her then.

After Intervention:-

AWC 2&3 have chosen for our PSE activities, Now that she is healthy she wants to do these PSE activities, these activities attracted her and **CALENDER & WEATHER**, these two are the activities that catches her eyes. Then she discussed her interests with the worker of Giridharaprasad AWC-3 and with the help of our PSE facilitator of that area Souvagini Das, she has already prepared the necessary TLMs of 1st phase activity, with the help of MC/jC members she has also arranged a lot of TLMs. Giridharaprasad-3 AWW helps them to started PSE activity, as a result day by day children attendance and interest has increased.

Thanks to ILP for the initiative steps towards preschool education.
